EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with David Upite on April 2, 2004.

The application has been amended as follows:

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Note that, Applicant's amendments, Applicant's arguments, and the Examiner's Amendment are sufficient to place the instant claims in condition for allowance.

Of the references of record, the most pertinent is WO 98/13456. '456 teaches a powder, paste or liquid washing or laundering post-treatment which contains cyclodextrin, and a method for treatment of textiles. The use of this composition, due to the presence of cyclodextrin, reduces the presence of surfactant residue on the textiles. See page 5, lines 5-30. However, '456 does not teach the use of a suds suppressor or a residue reduction agent which comprises one or more alkoxylated repeating groups.

None of the references of record, alone or in combination, teach or suggest a rinse added fabric treatment composition containing a pH control agent, a suds suppression system, a residue reduction agent comprising one or more alkoxylated repeating groups, and the other requisite components of the composition in the specific proportions as recited by the instant claims. Accordingly, since the prior art fails to teach or suggest such a composition as recited by the instant claims, the instant claims are deemed allowable.
